Brazilian Plantations tour - June 2011

We are organising a **Plantation Tour in Bahia, Brazil** which will provide you with the opportunity to meet our agroforestry team and visit our various Eucalyptus plantations.

Plans are for June 2011, travel periods are flexible due to the logistics of managing the plantations. Once we know the numbers of people expressing interest, we can then determine the type of Greenwood Management subsidies available.

Your opinion is important to us, which is why we would be delighted to receive any suggestions regarding what you would want or expect from this opportunity.

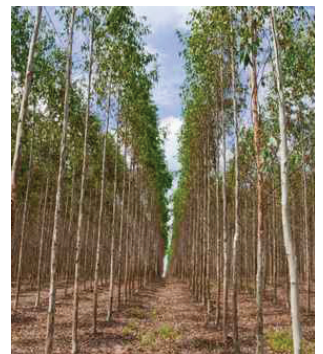

Places are limited so please contact us to avoid being disappointed. Reply to this newsletter now, quoting the reference '**Brazil Tour**'.

Keep checking our [website](#) for updates.

Greenwood Management Planned Price Increase

Annual Maintenance fee of 50 Euros per hectare across our range of forestry projects in Brazil. This fee is a result of increasing land values and the strengthening Brazilian Real.

This new management fee will not affect existing clients (except new businesses) and neither will any of the Canadian New Brunswick projects be affected.
